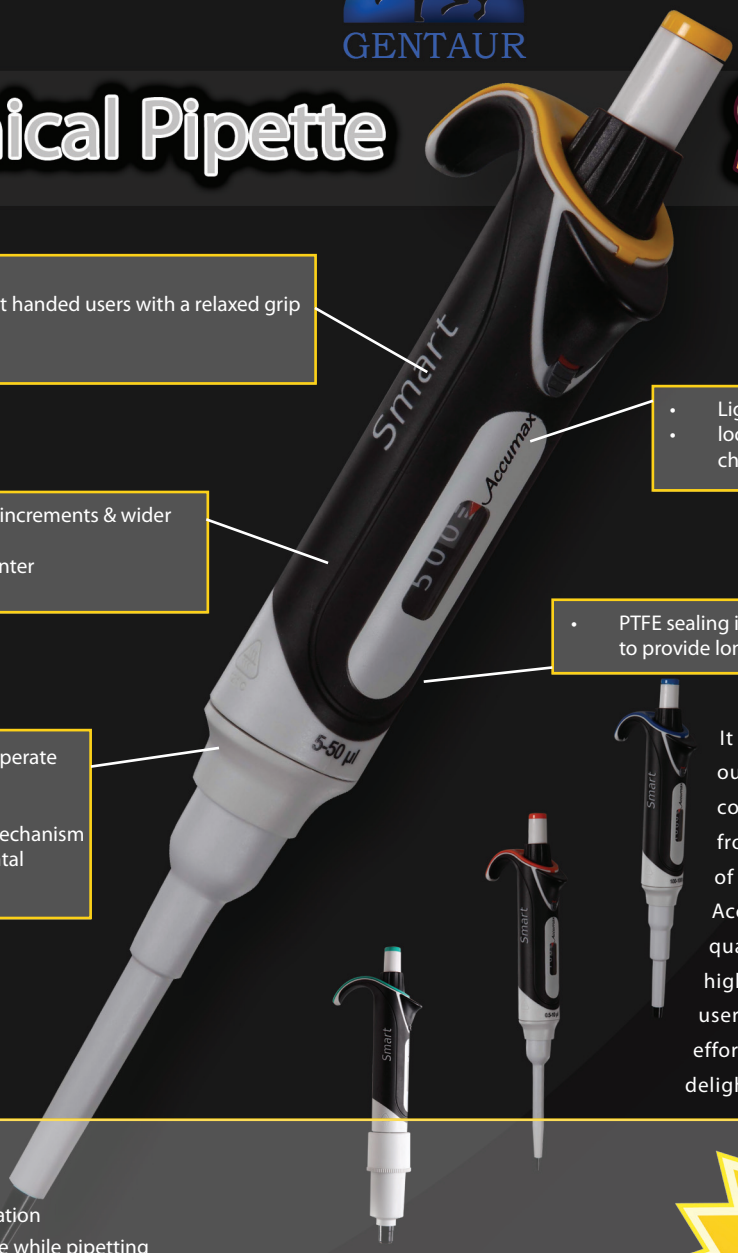
Mechanical Pipette Smart



- Ergonomic design
- Suitable for left and right handed users with a relaxed grip and good balance
- Soft touch tip ejection

- Light & smooth plunger action
- locking mechanism prevents accidental volume change during pipetting

- Clear 4 digit display for small increments & wider volume selection options.
- Resistance free click stop counter
- Larger digits

- PTFE sealing is used to create precise air tightness to provide long term consistent performance

- Slim designs allows pipette to operate even with narrow tubes used in laboratory
- Easely accesible recalibration mechanism without any chance of accindental change in calibration

It was the indefatigable efforts of our design and production teams combined with the feedback received from customers that saw the launch of Accumax SMART series of pipette. Accumax SMART pipette matches all quality parameters required to serve the high end research market. It also excels in user friendly features that make pipetting effortless, less time consuming and a delight.

- CE IVD Compliant
- Enhanced UV resistance
- Color coding for easy identification
- Volume display is always visible while pipetting
- Fatigue free working with convenient finger rest
- High performance, light weight and easy in operating
